

I am in total support of the "do not call" program!  
Advertisers/solicitors, etc. waste my valuable time and some don't know when to quit! I had one bank call fifteen times in eight days! I don't need more credit; I don't WANT more credit! Even after they were told not to call back, they did! To a point of calling them back and threatening harrassment charges!  
Telemarketers as well as TV infomercials are a menace to my time as well as that of my family and are an invasion of my privacy!
